

CTN BROADCAST

THURSDAY, AUGUST 14, 2008

9:30-10:30 AM CT / 10:30-11:30 AM ET

WORKPLACE TRACK

GOING GREEN: PURSUING ALTERNATIVES

Panelists:

Moderator, Cedric Green – South Carolina Electric & Gas Company

Dr. Jamil Khan – Chairman of Mechanical Engineering Department,
University of South Carolina

Tom Hutchins - EH&S Director, El Paso Corporation

Jeff Petrash - Senior Managing Counsel, Government Relations,
American Gas Association

Target Audience: Employees at all levels

Program Overview:

Environmental catastrophes, rising energy costs and health problems are beginning to site global climate change and atmospheric greenhouse gases as the cause. National legislators continue to debate the right structure for greenhouse gas policy. What does this mean for our industry? What are the alternatives we are pursuing?

Topics to be discussed:

- Greenhouse Gas Emissions
- Effective practices of member companies
- Assisting customers with energy efficiency
- Legislative impacts

Follow-up Web Conference:

Green Specifics/Legislative Implications/How Utilities Respond

26-August
